

SUMMARY OF CLASS 4

By 2018101075

Topic: Nirbhaya case:

1. First we saw 2 videos of this case's timeline.
2. Then we discussed what should be the criteria for Juvenile, whether it should be based on age, maturity, crime, etc. on which I think that it depends on all the factors. There should be a test which tells the maturity level of the person by checking his/her mind , body, hormonal growth, etc.
3. Then we discussed why people didn't help her where she was thrown out of the bus and what would I do if it ever happens? I will help as much as I can.
4. How can we prevent this?
This is the major point which was not discussed in the class and should have been discussed for the whole hour.
I think we need to have value education in the schools where students are taught, and made to think about this.
5. What is a bigger crime ?
I am unable to think which is a bigger crime, it's just insane to compare which crime is bigger.
